

## REMARKS

### *Specification Amendments*

The paragraph starting on on page 28, line 18 and continuing on page 29 has been  
5 amended to delete an informal statement.

### *Claim Status*

Claims 2-4 were indicated by the Examiner to be allowed if rewritten in independent form.  
The applicant thanks the Examiner for pointing out the allowable subject matter.

10

Original claim 2, which depended from claim 1, was allowable if rewritten in independent  
form. Claim 1 has been amended to incorporate limitations recited in original claim 2.  
Dependent claims 2, 3, 4 and 7 have been amended to more clearly point out and distinctly  
claim the invention and/or correct antecedent basis.

15

### *Regarding Claim Objections*

Claim 10 was objected to under 37 CFR 1.75(c) as being of improper dependent form for  
failing to further limit the subject matter of claim 7, from which it depends.

20

In reply, claim 7 has been amended with a removal of a limitation rendering the objection  
moot.

***Regarding 35 U.S.C. § 103 Rejection***

Claims 1 and 5-12 were rejected under 35 U.S.C. § 103 as being unpatentable over Smith et al. (US 7,096,416) in view of Weber et al. (US 5,564,005).

- 5 In reply, it is noted that original claim 2, which depended from independent and original claim 1, would be allowable if rewritten in independent form. Claim 1 has been amended to include limitations to the converting step recited in original claim 2. Accordingly, independent claim 1 should be allowed.

## CONCLUSION
